After School Tutorials - Homework Centre:

Every Tuesday to Thursday from 3:00pm-4:00pm in the Library (Radio Room).

Fortnightly Focus Weeks 5 & 6:

Physical Contact.

LEARNING LIFESAVING CPR TECHNIQUES

On Wednesday of this week, our school had the privilege of hosting Tarryn and Norm from Axiom College for a CPR training session. The focus of the session was to equip our Cert II in Health Support students with comprehensive knowledge and practical skills in performing CPR on both adults and infants.

Throughout the workshop, students were guided through the correct protocols and steps essential in life-saving emergencies where CPR is required. This encompassed mastering techniques such as: opening and clearing the airway, chest compressions and rescue breaths; all vital components in the resuscitation process. Additionally, emphasis was placed on the importance of assessing for potential dangers prior to approaching a patient, ensuring the safety of both the responder and the patient at all times.

Beyond the technical aspects, the session provided valuable insights into real-life scenarios, promoting a deeper understanding of effective responses and preparedness in critical situations.

We extend a huge thank you to Tarryn and Norm for their expertise and dedication in delivering this invaluable training to our students.

YEAR 7 CREATIVE ARTS STOP MOTION VIDEOS

Our talented year 7 students have been busy exploring the captivating world of media in performing arts, embarking on a creative journey to produce their very own stop motion videos. Using the versatile medium of play-doh, they crafted characters and brought them to life through the magic of animation. With dedication and creativity, they filmed each movement frame by frame, weaving together a series of scenes to tell engaging stories.

The tool of choice for this project was the user-friendly iStopMotion app, empowering our students to explore the intricacies of animation with ease. Not only does this app enable seamless frame-by-frame filming, but it also offers the opportunity to enhance their creations with music and sound, adding depth and immersion to their narratives.

See our school's Facebook page for more photos and keep an eye out for their fantastic videos which will be uploaded soon!
